VOLUME II

Este segundo volume tem como objetivo ser lido em complementaridade com o primeiro. Ao longo do primeiro volume existem “chamadas” laterais com as designações **P.I.**, **P.(DE).** e **P.(RE).** que remetem para o conjunto de pranchas que se encontram ordenadas neste segundo volume conforme a lógica do argumento do trabalho. Estas abreviaturas correspondem aos capítulos da introdução, do (de)compor e do (re)compor, daí a ordem que assumem na organização deste segundo volume.

De forma a proporcionar uma leitura contínua de ambos os volumes, as pranchas presentes nesta parte do trabalho devem ser posicionadas paralelamente por cima do primeiro volume de forma a criar um painel conjunto do assunto que se encontra a ser abordado.
